contrAA.jpg:

Atomic absorption spectrometry redefined! The contraAA atomic absorption spectrometer is the first commercially available instrument for the HR-CS AAS and launches a new generation of instruments for AAS.

multiNC.jpg:

TOX/EOX/POX Analysis: An innovative vertical furnace design and “septaleless” gas-lock inlet makes the multi X
© 2000 the pioneer AOX /TOX analyzer of a new generation.

UV-Vis.jpg:

The SPECORD®/SPEKOL family of UV VIS spectrophotometers covers the range from budget-priced, single-beam to high-performance real double-beam instruments with Cooled Double Detection (CCD). The product line includes also high power diode-array systems for simultaneous high speed measurement and spectrophotometer using Split-Beam-Technology (SBT).

Analytik Jena and MEP Instruments join forces in Australia and New Zealand

Analytik Jena (AJ) has appointed MEP Instruments as sole distributor for their range of scientific instrumentation.

In this latest acquisition MEP is able to expand its current range of highly sophisticated **analytical solutions with Atomic Absorption, UV/Vis Spectroscopy, TOC/TN analysis, TOX and Elemental analysis.**

With over 150 years of experience in the fields of **Optical Spectroscopy and Elemental analysis**, Analytik Jena has a long tradition in developing high quality and precision analytical systems that date back to the invention made by Ernst Abbe and Carl Zeiss.

Today Analytik Jena is a leading manufacturer of high performance tools featuring uppermost quality and precision.

Meeting these high demands, Analytik Jena is the only company which offers a 10-year warranty on optical components.

The wide product range of Analytik Jena analyzers is well suited for the analysis in the food industry, chemical industry, cosmetic industry, water analytics, pharmaceuticals, medicine, biotechnology, metallurgy, microbiology, materials research or education and covers today's laboratory needs of:

- Analytical capability to perform the required methods
- Cost-effective packages covering the full range of laboratory needs
- Delivery of a guaranteed system and after-sale support.

Please contact MEP on info@mep.net.au or 1300 720 485 for further information.

MEP Instruments Pty Ltd, PO Box 1880, North Ryde 2113, Phone 02 98786900. Fax: 02 98786999

MEP instruments is the sole distributor of leading names in sample analysis technology in Australia and New Zealand. MEP provides comprehensive service, support and training for the product lines of Metrohm, Anton Paar, Analytik Jena, Applikon, Autolab, Camag, Ismatec and Retsch.
