Keywords: water analysis, titration, ion chromatography, pH measurement, conductivity measurement

Industries: environmental, food, pharmaceuticals, power plants, energy and many more

New Metrohm brochure and webpage «Water Analysis»

Of the numerous hazardous substances found in water, about 200 guideline values have been listed by the WHO. However, which method to choose to determine which substance? Metrohm's new brochure «Water Analysis» provides answers. Metrohm's complete know-how (instruments and applications) on water analysis is accessible on the new homepage <http://water.metrohm.com>

«Water Analysis», which can be ordered free of charge at MEP or downloaded directly from water.metrohm.com, is a condensed summary of the company's comprehensive know-how in assuring the quality of water in its various forms and uses:

- drinking water
- sea water
- water for pharmaceutical use
- ultrapure water
- cooling water and boiler feed water
- process water
- waste water

Using the most important national and international standards (DIN, EPA, ISO, ASTM ...) as a matrix, «Water Analysis» suggests methods and instrumentation suited best to check the respective parameters. Methods include pH and conductivity measurement, titration, ion chromatography, voltammetry, atline and online process analysis. «Water Analysis» is of great value for anyone who is involved in the professional quality assurance of water.

The easiest way to access Metrohm's complete know-how on water analysis is the website water.metrohm.com. Here you can find a multitude of applications as well as information on analytical instrumentation for water analysis. Downloads are free of charge.

Metrohm in Australia and New Zealand:

**MEP Instruments Pty Ltd, PO Box 1880, North Ryde 2113,
Phone 02 98786900. Fax: 02 98786999**

MEP Instruments is sole distributor of leading names in sample analysis technology in Australia and New Zealand. The joint venture company formed by Metrohm Switzerland and Anton Paar Austria provides comprehensive service, support and training for the whole product line of Metrohm, Anton Paar, Analytik Jena, Applikon, Autolab, Camag, Retsch and Retsch Technology in Australia and New Zealand.

Contact MEP Instruments Pty Ltd (Australia), Unit 5, 112-118 Talavera Road, North Ryde, NSW 2113
